November 12, 2021

PRESS RELEASE

To mark the end of an historic FIA World Rally Championship, lxhxb sv will venture into E-sports for the first time.

You're invited to join us for a friendly competition against ourselves in the aptly titled video game *art of rally*.

We will be driving a Peugeot 205 Turbo 16 E2-inspired car in full lxhxb sv livery. This car was part of the legendary Group B class that pushed rally racing into dangerous extremes in the 1980's.

Because of this association with an extreme position that only a few were willing and able to partake in, the second group exhibition at the gallery was named in its honour.
