Summer Reading 2

23.8.2025 – 24.8.2025

PRESS RELEASE

The booklet *Head Box – Headbox*, that was published in 2022 on the occasion of the eponymous exhibition, was a straightforward facsimile of ephemera from previous exhibitions of the work Headbox by Jean-Luc Moulène. When this work was again shown for gerlach en koop's exhibition *Om vijf uur? Slapen.* at Rib, Rotterdam, the booklet was republished and the press release of that exhibition was added to the compilation.

Only a few weeks before, the gallery hosted the exhibition *Summer Reading*, which featured the publications of the gallery thus far, with some related materials.

Now, the gallery restages this exhibition, thereby mimicking the republication of *Head Box – Headbox*.

Also featured in the exhibition are a number of publications relating to the programme of the gallery that have likewise been restaged in some way.
